

## SUFFOLK COUNTY OFFICE OF HUMAN RESOURCES PROJECT IMPACT UKG ANNOUNCEMENT

---

The Suffolk County Police Department, the Sheriff's Office, Fire Rescue and Emergency Services Department, County Information Technology and the Suffolk County Human Resources Office will be implementing a new scheduling and staffing system, called UKG. The implementation team consists of members of these departments including:

- SCPD Technology Bureau
- Sheriff IT/Employees Relations
- County Information Technology
- Project Impact Management Team

UKG will provide real-time visibility to schedules, status of shift trades/swaps, leave requisitions and overtime opportunities. UKG will be used for certain roles within the Police Department and FRES as well as the entire Sheriff's Office.

This new technology will deploy along with our Workday solution Summer 2021.

Some of the benefits to employees and managers of this new tool include:

- Management of your own time and bid schedules
- Enhanced communications with supervisors who approve staffing requests
- Provides instant access to work information such as schedules, status of shifts trades/swaps, leave requests and overtime opportunities

For the most up-to-date information on UKG, our new scheduling and staffing system, as well as Workday, please visit us at [hrms.suffolkcountyny.gov](http://hrms.suffolkcountyny.gov).
